Subjects marked * can in certain limited circumstances be chosen as a fresh-start Higher (or Intermediate 2 in the case of Practical Craft Skills and Hospitality). Microsoft Office Specialist, although not an SQA course, is at an equivalent level to Intermediate 2. Some notes are appended to subject entries in this booklet to help with your decision, and the possibility of a fresh start Higher can be discussed at your forthcoming ISCO / Futurewise interview.

Please note that classes will run subject to sufficient numbers.
