

This 'Think on it!' task was taken from, 'Big Thinkers and Big Ideas: An Introduction to Eastern and Western Philosophy for Kids', by Sharon Kaye, PhD.

**THINK ON IT!**

Imagine a man named Theseus who has an old boat. He decides to replace its wooden planks—one plank each day. At the end of the first day, the boat is all gray with one new blue plank. Halfway through the year, the boat is half blue. By the end of the year, it's all blue—nothing remains of the original. Does Theseus have a new boat? If so, at what point did it stop being the old boat?
